

Train path requests for cross-border services

Passenger services help document

Valid from 11.12.2016

The principles of mandatory entries in NeTS-ZED

For cross-border passenger trains, the RU must record at least the following operating points nationally and internationally:

- Starting station for the train route including departure time and purpose(s) of stop
- Last commercial stop before the border and first commercial stop after the border, including timetable time and purpose(s) of stop
- Destination station for the train route including arrival time and purpose(s) of stop
- Mandatory operating points according to this factsheet.
- Special consideration must be given to trains that run past midnight.

Mandatory operating point entries in AVIS (-NeTS)

Special rules for cross-border passenger services

Passenger traffic: First/last international stop including purpose(s) of stop (Examples for regular services)
