Information

Safety regulations for drivers on SBB sites:

- High-visibility safety vest
- Licence for transporting hazardous goods (if required)
- Safety footwear
- Protective glasses

→ This always applies to the entire SBB site

Important: Never open the cover under an overheard contact line while loading and unloading! → Risk of death!

The following collection services use tarpaulins covers:

- Yverdon (sometimes also possible with semi-trailers)
- Olten (always with semi-trailers, uncouple the trailer, recouple the full trailer)
- Zurich Hohlstrasse 400, Bellinzona Via Officina 18, and for bogies and wheelsets.

Requirements for the vehicle and loading safety:

- A lifting platform is required for all vehicles. (Apart from in Olten → semi-trailer)
- Tarpaulins covers
- Only use lashing straps, no chains etc.
- Use the latest loading safety regulations. Charges will apply for any damage.

Information about sending post:

- Always use the organisational unit abbreviations (e.g. P-OP-MLO-LOG-...) for addresses, otherwise delivery cannot be guaranteed.

CompanyMail: The listed addresses must be entered word-for-word in the recipient fields (linking is not possible)
